“

You helped make our International Team Trip possible and we are very thankful. Our team had a once-in-a-lifetime experience, and enjoyed educational and competitive activities. Your support also helps us continue to operate at a high level and win championships. Winning another title was a great accomplishment for our program. Thank you for all that you do! -Mark Krikorian

IMPACT:

All funds raised this year went towards providing the opportunity for the team to go on an international competitive travel program. This trip was an amazing opportunity for the team to compete against professional European teams and important in continuing the success of student-athlete recruitment.

FUTURE IMPACT:

We are raising funds for the 2022 international team trip. The 2018 trip was highly beneficial in the form of education, culture, personal development, and competition. Additionally, Coaches Club funds help provide new technology for athlete development. The coaching staff is constantly researching the best training and development tools used by soccer teams around the world. This tech will help with the players' physical development and help develop the tactical side of the game. Staying on the cutting edge of technology will give our athletes the best chance to compete for the National Championship every year.
